

Attention!

Can UNISON reach you about NHS Pay?

UNISON is fighting for a fair pay rise that recognises your extraordinary efforts.

The NHS Pay Review Body is due to make its recommendation on your pay in the summer. **So we must be ready to spring into action** if we need to when the government makes its decision. That means being able to get in touch with you quickly to ask what you want to do.

It's Vital that UNISON has you up-to-date contact details- especially your email address, mobile phone number, job role and employer - so that you can be sure your voice is heard. We're stronger when we speak up together.
